INNOVATIVE EXTRACTS

Moringa

MORINGA (*Moringa oleifera*) is a star plant of ayurvedic medicine and is considered a superfood. It is commonly named "**Tree of life**" because it makes drinking water possible thanks to the **antibacterial** power of its seeds, and it survives to drought thanks to the water **retention capacity** of its roots.

It also acts against **malnutrition** with its composition of vitamins, minerals, trace elements and proteins.

It contains active molecules which confer many **health benefits** such as vitamin C, tannins or flavonoids.

Its **leaves** are traditionally consumed for their positive actions such as **immunity, tiredness, sports performance** and **digestion help**.

What does the French regulation say?

Different **plant parts** can be used in food supplements: Leaf, Fruit, Seed, Seed (oil), Whole plant, Leafy stem

Numerous **scientific publications** exist, highlighting the benefits of this plant and demonstrating its effectiveness.

Organic Moringa extract 10% - EXINNOV

EXINNOV offers an extract of moringa **leaves** from **organic** farming and **certified** by ECOCERT.

Titrated to 10% in **total polyphenols**, it is produced thanks to our patented **subcritical water extraction** process.

The active **content** and **quality** of the extract are **guaranteed** by laboratory analyses.
